1954

A. INTRODUCTION

On the following pages statistics for public libraries in urban centres of over 10,000 population and of regional libraries, are presented. These two groups of libraries represent the bulk of public library service in Canada. In 1953 they accounted for 65,00 per cent of the total number of volumes, 82.77 per cent of the circulation and 86.82 per cent of the current expenditures of all Canadian public libraries. Assuming these proportions to be fairly constant, Table 1 presents estimated totals for all Canadian public libraries for 1954, based on the libraries included in the following analysis.

The urban public libraries and the regional libraries are considered separately, with the urban public libraries being grouped according to the size of the population served by them to show variations that are present in types of service and staffs.

Table 2 shows the distribution of the two types of libraries by province, and, in the case of the urban libraries, by population group served.

A. INTRODUCTION

Les pages qui suivant donnent la statistique des bibliothèques publiques des centres urbains de plus de 10,000 habitants et celle des bibliothèques régionales. Ces deux groupes de bibliothèques publiques au Canada. En 1953, ils étaient comptables de 65.0 p. 100 du nombre total de volumes, de 82.77 p. 100 de la circulation et de 86.82 p. 100 des dépenses ordinaires de toutes les bibliothèques publiques du pays. A supposer que ces proportions sont suffisamment constantes, le tableau 1 présente le total estimatif pour toutes les bibliothèques publiques en 1954, total fondé sur les bibliothèques comprises dans l'analyse qui va suivre.

Les bibliothèques publiques urbaines et les bibliothèques régionales sont étudiées séparément; les bibliothèques publiques urbaines sont groupées suivant la taille de la population qu'elles desservent afin d'indiquer les variantes qui se présentent dans les genres de services et le personnel.

Le tableau 2 donne la distribution des deux genres de bibliothèques par province, et, dans le cas des bibliothèques urbaines, par groupe de population desservi.

B. LARGER FREE URBAN PUBLIC LIBRARIES

Exclusive of libraries whose reports were completely duplicated in those of regional libraries. there were 80 free public libraries in urban centres of over 10,000 population that responded to this survey. They represented nine provinces, with the Charlottetown Legislative and Public Library being included in the Prince Edward Island Regional Library figures. Statistics for the libraries in Sydney and Glace Bay in Nova Scotia are duplicated in the report of the Cape Breton Regional Library.

These 80 libraries served a total population, based on 1951 census figures, of 5,229,971. They contained a total of 5,466,887 volumes, 509,165 of which were added in 1954. Total circulation was 23, 190, 793 to 1, 230, 657 registered borrowers. Fulltime staff members numbered 1,454 with 839 of these being librarians. Of the total staff, 563 had degrees or equivalent diplomas in library science and an additional 167 had training of less than degree status.

Current expenditures amounted to \$6,773,239 or \$1.30 per capita of the total population served. Expressing current expenditures in other ways, the expenditure per volume in stock averaged \$1.24. or, the average expenditure each time a book was loaned was \$0.29.

B. GRANDES BIBLIOTHÈQUES PUBLIQUES **GRATUITES URBAINES**

A l'exception des bibliothèques dont les rapports feraient double emploi avec ceux des bibliothèques régionales, qui les comprenaient déjà, 80 bibliothèques publiques gratuites de centres urbains de plus de 10,000 habitants ont répondu à cette enquête. Elles réprésentent neuf provinces si l'on tient compte de la bibliothèque de la législature de Charlettotown et de la bibliothèque publique de la même ville, dont les chiffres figurent avec ceux de la bibliothèque régionale de l'Île-du-Prince-Édouard. La statistique des bibliothèques de Sydney et de Glace-Bay (N.-É.) est comprise dans le rapport de la bibliothèque régionale du Cap-Breton.

Ces 80 bibliothèques desservent une population globale de 5,229,971 habitants, d'après les chiffres du recensement de 1951. Elles contiennent 5,466,887 volumes, dont 509, 165 acquis en 1954. Leur circulation est de 23,190,793 pour un total de 1,230,657 abonnés inscrits. Les employés à temps complet se chiffrent par 1,454 dont 839 bibliothècaires. Sur l'ensemble du personnel, 563 employes possèdent un grade universitaire ou un diplôme équivalent en bibliothéconomie et 167 autres ont suivi des cours abrégés qui ne conduisent pas au grade universitaire.

Les dépenses courantes se sont chiffrées par \$6,773,239 soit \$1.30 par personne de la population desservie. Exprimées d'une autre façon, elles représentent \$1.24 par volume en bibliothèque ou une dépense moyenne de 29c par prêt.

C. REGIONAL LIBRARIES

There were a total of 26 regional libraries in seven provinces in 1954, serving an estimated total population of 1,647,851 persons. Total volumes numbered 814,373 with the per capita circulation of each volume averaging just under five times per year. Juvenile circulation, mainly through the schools in the library areas, accounted for well over half of the total. Current expenditures, exclusive of Newfoundland, amounted to 38.9 cents per capita. Twenty-one of the libraries had bookmobiles for the distribution of books to branch libraries and other agencies.

Staff members totalled 114 full-time and 141 part-time with 48 having degrees in library science and an additional seven having training of less than degree status.

The following tables give details of the activities of these libraries during 1954. If the libraries within a province do not offer certain types of service, the name of the province is omitted from the specific table showing those services.

C. BIBLIOTHÈQUES RÉGIONALES

Vingt-six bibliothèques régionales réparties dans sept provinces en 1954 desservaient une population estimative de 1,647,851 personnes. La collection globale s'établissait à 814,373 volumes et la circulation de ceux-ci par personne à été d'un peu moins de cinq fois par ouvrage. La circulation chez les jeunes. surtout par l'intermédiaire des écoles des régions desservies par la bibliothèque, a représenté beaucoup plus que la moitié du total. Les dépenses ordinaires. celles de Terre-Neuve exceptées, se sont chiffrées par 38.9 cents par personne. Vingt et une des bibliothèques possédaient un bibliobus pour la distribution des volumes aux succursales et autres organismes.

Le personnel se composait de 114 employés à temps continu et de 141 à temps discontinu; du total, 48 possédaient un diplôme universitaire en bibliothèconomie et sept autres, une formation moins avancée dans le même domaine.

Les tableaux ci-dessous donnent le détail de l'activité de ces bibliothèques en 1954. Lorsque les bibliothèques d'une province n'offrent pas certains genres de services, le nom de cette province est omis du tableau portant particulièrement sur ces services.
